

Air 1 has helped me so much, the music is so positive and uplifting. If I lost air1 it would be the worst thing that you could do.

If air1 would be displaced by another LPFM broadcaster programming I would be missing my favorite radio station. Air 1 has made a difference here in Oregon and I know that without them many people wouldn't have found what has helped them throughout their difficulties in life.

I believe that Air 1 is in the public interest because it gives people a better quality in music with how the lyrics are encouraging and uplifting.
